Important Furniture Care

Here are just a few ideas to help keep your Modular Furniture product looking good for many years to come.

Dust with a soft clean cloth or feather duster.

Wipe with a clean damp cloth to remove minor marks.

Spillages especially alcohol should be wiped off immediately with a damp cloth.

Protect your furniture with heat resistant placemats for all hot food and beverages.

Do not expose timber to direct sunlight or extremes of humidity.

Do not conceal the tops of your furniture with glass covers. This can result in sweating of the timber and peeling of the stain may occur.

Do not use general household cleaning products that contain silicones or abrasive polishers.

Do not allow hot or abrasive items in contact with your surfaces.

Do not allow liquids or damp cloths to remain in contact with the furniture's surfaces.

Doors and drawers are squarely fitted in our factory. Ensure your unit sits on a level surface for smooth operation.

Periodically check & tighten screws as necessary. Bed Slats should be alternated from centre to end every six months to extend life. Solid slats and bases should be flipped over at that time.

Timber is a natural product, so variances in colour, shade and grain will occur due to ageing. A small amount of timber movement is also considered natural. In the event of damage, please contact your retailer or our factory for advice.
